9. UNITED STATES TAX CONSIDERATIONS

Section 871(m) Withholding Tax

The U.S. Treasury Department has issued regulations under which amounts paid or deemed paid on certain financial instruments that are treated as attributable to U.S.-source dividends could be treated, in whole or in part depending on the circumstances, as a "dividend equivalent" payment that is subject to tax at a rate of 30 per cent. (or a lower rate under an applicable treaty). We have determined that, as of the issue date of the Certificates, the Certificates will not be subject to withholding under these rules. In certain limited circumstances, however, it is possible for United States alien holders to be liable for tax under these rules with respect to a combination of transactions treated as having been entered into in connection with each other even when no withholding is required. United States alien holders should consult their tax advisor concerning these regulations, subsequent official guidance and regarding any other possible alternative characterisations of their Certificates for United States federal income tax purposes. See "*United States Tax Considerations – Dividend Equivalent Payments*" in the Base Prospectus for a more comprehensive discussion of the application of Section 871(m) to the Certificates.

Classification as Debt for U.S. Tax Purposes

We have determined that there is a material risk that the Certificates will not be treated as a debt instrument, but will rather be treated as a forward or derivative contract, for United States federal income

tax purposes. In light of this possibility, we intend to treat the Certificates in the manner described under "*United States Tax Considerations -- Securities Issued by GSFCI -- Securities that are not Classified as Debt for United States Tax Purposes*" in the Base Prospectus.

The Securities are our unsecured obligations, and the Guaranty thereof is an unsecured obligation of the Guarantor. Neither the Securities nor the Guaranty are bank deposits, and neither are insured or guaranteed by the UK Financial Services Compensation Scheme, the Jersey Depositors Compensation Scheme, the U.S. Federal Deposit Insurance Corporation, the U.S. Deposit Insurance Fund or any other government or governmental or private agency or deposit protection scheme in any jurisdiction. The value of and return on your Securities will be subject to our credit risk and that of the Guarantor and to changes in the market's view of our creditworthiness and that of the Guarantor.</p> <p>References in Elements B.12 and B.19 (B.12) above to the "prospects" and "financial or trading position" of the Issuer and Guarantor (as applicable), are specifically to their respective ability to meet their full payment obligations under the Securities (in the case of GSFCI) or Guaranty (in the case of GSG) in a timely manner. Material information about the Issuer's and the Guarantor's</p>															

		<p>respective financial condition and prospects is included in each of the Issuer's and the Guarantor's annual and interim reports. You should be aware, however, that each of the key risks highlighted below could have a material adverse effect on the Issuer's and the Guarantor's businesses, operations, financial and trading position and prospects, which, in turn, could have a material adverse effect on the return investors receive on the Securities.</p> <p>The Issuer and the Guarantor are subject to a number of key risks of the Group:</p> <ul style="list-style-type: none"> • The Group's businesses have been and may continue to be adversely affected by conditions in the global financial markets and economic conditions generally. • The Group's businesses and those of its clients are subject to extensive and pervasive regulation around the world. • The Group's businesses have been and may be adversely affected by declining asset values. This is particularly true for those businesses in which it has net "long" positions, receives fees based on the value of assets managed, or receives or posts collateral. • The Group's businesses have been and may be adversely affected by disruptions in the credit markets, including reduced access to credit and higher costs of obtaining credit. • The Group's market-making activities have been and may be affected by changes in the levels of market volatility. • The Group's investment banking, client execution and investment management businesses have been adversely affected and may in the future be adversely affected by market uncertainty or lack of confidence among investors and CEOs due to general declines in economic activity and other unfavourable economic, geopolitical or market conditions. • The Group's investment management business may be affected by the poor investment performance of its investment products or a client preference for products other than those which the Group offers or for products that generate lower fees. • The Group may incur losses as a result of ineffective risk management processes and strategies. • The Group's liquidity, profitability and businesses may be adversely affected by an inability to access the debt capital markets or to sell assets or by a reduction in its credit ratings or by an increase in its credit spreads. • A failure to appropriately identify and address potential conflicts of interest could adversely affect the Group's businesses. • A failure in the Group's operational systems or infrastructure, or those of third parties, as well as human error or malfeasance, could impair the Group's liquidity, disrupt the Group's businesses, result in the disclosure of confidential information, damage the Group's reputation and cause losses. • A failure to protect the Group's computer systems, networks and information, and the Group's clients' information, against cyber attacks and similar threats could impair the Group's ability to conduct the Group's businesses, result in the disclosure, theft or destruction of confidential information, damage the Group's reputation and cause

		<p>losses.</p> <ul style="list-style-type: none"> • GSG is a holding company and is dependent for liquidity on payments from its subsidiaries, many of which are subject to restrictions. • The application of regulatory strategies and requirements in the U.S. and non-U.S. jurisdictions to facilitate the orderly resolution of large financial institutions could create greater risk of loss for GSG's security holders. • The application of GSG's proposed resolution strategy could result in greater losses for GSG's security holders. • The Group's businesses, profitability and liquidity may be adversely affected by Brexit. • The Group's businesses, profitability and liquidity may be adversely affected by deterioration in the credit quality of, or defaults by, third parties who owe the Group money, securities or other assets or whose securities or obligations it holds. • Concentration of risk increases the potential for significant losses in the Group's market-making, underwriting, investing and lending activities. • The financial services industry is both highly competitive and interrelated. • The Group faces enhanced risks as new business initiatives lead it to transact with a broader array of clients and counterparties and exposes it to new asset classes and new markets. • The Group's results may be adversely affected by the composition of its client base. • Derivative transactions and delayed settlements may expose the Group to unexpected risk and potential losses. • Certain of the Group's businesses, funding and financial products may be adversely affected by changes in the discontinuance of Interbank Offered Rates (IBORs), in particular LIBOR. • Certain of the Group's businesses and its funding may be adversely affected by changes in other reference rates, currencies, indexes, baskets or ETFs to which products the Group offers or funding that the Group raises are linked. • The Group's businesses may be adversely affected if it is unable to hire and retain qualified employees. • The Group may be adversely affected by increased governmental and regulatory scrutiny or negative publicity. • Substantial civil or criminal liability or significant regulatory action against the Group could have material adverse financial effects or cause significant reputational harm, which in turn could seriously harm the Group's business prospects. • The growth of electronic trading and the introduction of new trading technology may adversely affect the Group's business and may increase competition. • The Group's commodities activities, particularly its physical commodities

D.6	<p>Key risks that are specific to the Securities</p>	<ul style="list-style-type: none"> • Your capital is at risk. Depending on the performance of the underlying asset(s), you may lose some or all of your investment. • You could also lose some or all of your investment in the Securities where: <ul style="list-style-type: none"> ◦ We (as Issuer and Guarantor) fail or go bankrupt, the Guarantor becomes subject to resolution proceedings or we are otherwise unable to meet our payment obligations. In the event that the Guarantor becomes subject to bankruptcy or resolution proceedings (but the Issuer does not), you will not be able to declare the Securities to be immediately due and repayable. The return you receive on the Securities in this particular circumstance could be significantly less than what you would have otherwise received had you been able to declare the Securities immediately due and repayable upon the bankruptcy or resolution of the Guarantor; ◦ You do not hold your Securities to maturity and the secondary sale price you receive is less than the original purchase price; or ◦ Your Securities are redeemed early due to an unexpected event and the amount you receive is less than the original purchase price. • The estimated value of your Securities (as determined by reference to pricing models used by us) at the time the terms and conditions of your Securities are set on the trade date, will be less than the original issue price of your Securities. • Depending on the performance of the Underlying Assets, you may not receive any interest or coupon on your investment • Your Securities may not have an active trading market, and you may be unable to dispose of them. • We give no assurance that application for listing and admission to trading of the Securities will be granted (or, if granted, will be granted by the issue date) or that an active trading market in the Securities will develop. We may discontinue any such listing at any time. • The potential for the value of the Securities to increase is limited as the maximum payment at maturity is capped. • The "worst-of" feature means that you will be exposed to the performance of each underlying asset and, in particular, to the underlying asset which has the worst performance. <p><i>Risks associated with Securities linked to underlying asset(s):</i></p> <ul style="list-style-type: none"> • The value of and return on the Securities depends on the performance of such underlying asset(s), which may be subject to unpredictable change over time.

		<ul style="list-style-type: none"> • Past performance of an underlying asset is not indicative of future performance. • You will not have any rights of ownership in the underlying asset(s), and our obligations under the Securities to you are not secured by any assets. • Following a disruption event, the valuation of the underlying asset(s) may be postponed and/or valued by us (as Calculation Agent) in our discretion. • Following the occurrence of certain extraordinary events in relation to the underlying asset(s) or in relation to index linked securities, following the occurrence of an index adjustment event, depending on the terms and conditions of the particular Securities, amongst other potential consequences, the terms and conditions of your Securities may be adjusted, the underlying asset may be substituted, or the Securities may be redeemed early at the non-scheduled early repayment amount. Such amount may be less than your initial investment and you could lose some or all of your investment. • The performance of shares is dependent upon many unpredictable factors. • You may receive a lower return on the Securities than you would have received from investing in the shares directly because you will not receive the value of dividends. • The issuer of a share may take any actions in respect of a share without regard to your interests as Holders of the Securities, and any of these actions could negatively affect the value of and return on the Securities. • A small basket will generally be more vulnerable to changes in the value of the underlying assets and a change in composition of a basket may have an adverse effect on basket performance. • A basket may offset the positive performance of one Underlying Asset with the negative performance of another Underlying Asset and therefore not produce a result as favourable as an investment linked only to one or more of the positive performing Underlying Assets. • A high correlation of basket components may have a significant effect on amounts payable on the Securities and the negative performance of a single basket component may outweigh a positive performance of one or more other basket components and may have an impact on the return on the Securities. • Your Securities may be adjusted or redeemed prior to maturity due to a change in law. Any such adjustment may reduce the value of and return on your Securities; the amount you receive following an early redemption may be less than your initial investment and you could lose some or all of your investment. • The Issuer of the Securities may be substituted with another company. • We may amend the terms and conditions of your Securities in certain circumstances without your consent.
