88. **UNITED STATES TAX CONSIDERATIONS**

**Section 871(m) Withholding Tax**

The U.S. Treasury Department has issued regulations under which amounts paid or deemed paid on certain financial instruments that are treated as attributable to U.S.-source dividends could be treated, in whole or in part depending on the circumstances, as a "dividend equivalent" payment that is subject to tax at a rate of 30 per cent. (or a lower rate under an applicable treaty). We have determined that, as of the issue date of the Certificates, the Certificates will not be subject to withholding under these rules. In certain limited circumstances, however, it is possible for United States alien holders to be liable for tax under these rules with respect to a combination of transactions treated as having been entered into in connection with each other even when no withholding is required. United States alien holders should consult their tax advisor concerning these regulations, subsequent official guidance and regarding any other possible alternative characterisations of their Certificates for United States federal income tax purposes. See "*United States Tax Considerations – Dividend Equivalent Payments*" in the Base Prospectus for a more comprehensive discussion of the application of Section 871(m) to the Certificates.

**Autocall Event**

An "**Autocall Event**" occurs if the Autocall Reference Value in respect of any Autocall Observation Date is greater than or equal to its respective Autocall Level for such Autocall Observation Date.

Defined terms used above:

- **Asset Initial Price:** the Initial Closing Price of the Underlying Asset.
- **Autocall Level:** in respect of each Autocall Observation Date, the amount set forth in the column entitled "Autocall Level" in the same row as the relevant Autocall Observation Date in the table above.
- **Autocall Reference Value:**
  - in respect of an Underlying Asset, other than in respect of an Autocall Observation Period (Per AOD), the Reference Price of such Underlying Asset on the relevant Autocall Observation Date; and
  - in respect of an Autocall Observation Period (Per AOD), and in respect of an Underlying Asset, the Reference Price of such Underlying Asset on each relevant day falling in the Autocall Observation Period (Per AOD) corresponding to the relevant Autocall Observation Date.
- **Initial Closing Price:** the Reference Price of the Underlying Asset on June 29, 2020, subject to adjustment in accordance with the terms and conditions.
- **Reference Price:** the closing share price of the Share for the relevant date.

**Non-scheduled Early Repayment Amount**

**Unscheduled early redemption:** The Securities may be redeemed prior to the scheduled maturity (i) at the Issuer's option (a) if the Issuer determines a change in applicable law has the effect that performance by the Issuer or its affiliates under the Securities or hedging transactions relating to the Securities has become (or there is a substantial likelihood in the immediate future that it will become) unlawful or impracticable (in whole or in part), (b) where applicable, if the Calculation Agent determines that certain additional disruption events or adjustment events as provided in the terms and conditions of the Securities have occurred in relation to the underlying assets or (ii) upon notice by a Holder declaring such Securities to be immediately repayable due to the occurrence of an event of default which is continuing.

In such case, the Non-scheduled Early Repayment Amount payable on such unscheduled early redemption shall be, for each Security, an amount representing the fair market value of the Security taking into account all relevant factors less all costs incurred by the Issuer or any of its affiliates in connection with such early redemption, including those related to unwinding of any underlying and/or related hedging arrangement.

**The Non-scheduled Early Repayment Amount may be less than your initial investment and therefore you may lose some or all of your investment on an unscheduled early redemption.**

**Settlement Amount**

Unless previously exercised early, or purchased and cancelled, the Settlement Amount payable in respect of each Security on the maturity date will be:

**SECTION D – RISKS**

D.2

**Key risks that are specific to the Issuer**

The payment of any amount due on the Securities is subject to our credit risk. The Securities are our unsecured obligations. The Securities are not bank deposits, and are not insured or guaranteed by the UK Financial Services Compensation Scheme, the Jersey Depositors Compensation Scheme, the U.S. Federal Deposit Insurance Corporation, the U.S. Deposit Insurance Fund or any other government or governmental or private agency or deposit protection scheme in any jurisdiction. The value of and return on your Securities will be subject to our credit risk and to changes in the market's view of our creditworthiness.

References in Element B.12 above to the "prospects" and "financial or trading position" of the Issuer, are specifically to its respective ability to meet its full payment obligations under the Securities (in the case of GSI) in a timely manner. Material information about the Issuer's financial condition and prospects is included in the Issuer's annual and interim reports. You should be aware, however, that each of the key risks highlighted below could have a material adverse effect on the Issuer's businesses, operations, financial and trading position and prospects, which, in turn, could have a material adverse effect on the return investors receive on the Securities.

The Issuer is subject to a number of key risks of the Group:

- The Group's businesses and those of its clients are subject to extensive and pervasive regulation around the world.

- The Group's businesses have been and may be adversely affected by disruptions in the credit markets, including reduced access to credit and higher costs of obtaining credit.
- The Group's market-making activities have been and may be affected by changes in the levels of market volatility.
- The Group's investment banking, client execution, asset management and wealth management businesses have been adversely affected and may in the future be adversely affected by market uncertainty or lack of confidence among investors and CEOs due to general declines in economic activity and other unfavourable economic, geopolitical or market conditions.
- The Group's asset management and wealth management businesses may be affected by the poor investment performance of its investment products or a client preference for products other than those which the Group offers or for products that generate lower fees.
- The Group may incur losses as a result of ineffective risk management processes and strategies.
- The Group's liquidity, profitability and businesses may be adversely affected by an inability to access the debt capital markets or to sell assets or by a reduction in its credit ratings or by an increase in its credit spreads.
- The Group faces enhanced risks as new business initiatives and acquisitions lead the Group to engage in new activities, transact with a broader array of clients and counterparties and expose the Group to new asset classes and new markets.
