9. **UNITED STATES TAX CONSIDERATIONS**

Section 871(m) Withholding Tax

The U.S. Treasury Department has issued regulations under which amounts paid or deemed paid on certain financial instruments that are treated as attributable to U.S.-source dividends could be treated, in

whole or in part depending on the circumstances, as a "dividend equivalent" payment that is subject to tax at a rate of 30 per cent. (or a lower rate under an applicable treaty). We have determined that, as of the issue date of the Certificates, the Certificates will not be subject to withholding under these rules. In certain limited circumstances, however, it is possible for United States alien holders to be liable for tax under these rules with respect to a combination of transactions treated as having been entered into in connection with each other even when no withholding is required. United States alien holders should consult their tax advisor concerning these regulations, subsequent official guidance and regarding any other possible alternative characterisations of their Certificates for United States federal income tax purposes. See "*United States Tax Considerations – Dividend Equivalent Payments*" in the Base Prospectus for a more comprehensive discussion of the application of Section 871(m) to the Certificates.

Classification for U.S. Tax Purposes

We intend to treat the Certificates, for United States federal income tax purposes, in the manner described under "*United States Tax Considerations – Securities Issued by GSFCl – Securities that are Classified as Debt for United States Tax Purposes*" in the Base Prospectus, which description includes details for United States alien holders eligible for an exemption from United States federal withholding tax on payments of principal and interest. However this determination is not binding on the United States Internal Revenue Service ("**IRS**") and the IRS may disagree with the treatment. In the case of Certificates that bear periodic coupons, the consequences of the IRS disagreeing with the treatment include the possibility that coupon payments made to you (including any such coupon payments made at maturity) could be subject to tax at a 30 per cent. rate or at a lower rate specified by an applicable income tax treaty under an "other income" or similar provision. No additional amounts will be paid for such tax by us or by the applicable withholding agent. Amounts paid upon the redemption or maturity of the Certificates are not expected to be subject to U.S. withholding tax and, if we (including any of our affiliates) are the withholding agent, we do not intend to withhold on such amounts. You should consult your own tax advisor regarding the U.S. tax consequences of purchasing, holding and disposing of the Certificates.

What are the key risks that are specific to the Issuer?

The Issuer is subject to the following key risks:

- The payment of any amount due on the Securities is subject to the credit risk of the Issuer and Guarantor. The Securities are the Issuer's unsecured obligations and the Guarantee is the Guarantor's unsecured obligation. Investors are dependent on the Issuer's and Guarantor's ability to pay all amounts due on the Securities, and therefore investors are subject to the Issuer's and Guarantor's credit risk and to changes in the market's view of the Issuer's and Guarantor's creditworthiness. Neither the Securities nor the Guarantee are bank deposits, and neither are insured or guaranteed by any compensation or deposit protection scheme. The value of and return on the Securities will be subject to the Issuer's credit risk and to changes in the market's view of the Issuer's creditworthiness.
- GSG and its consolidated subsidiaries ("**Goldman Sachs**") is a leading global investment banking, securities and investment management group and faces a variety of significant risks which may affect the Issuer's and the Guarantor's ability to fulfil their obligations under the Securities, including market and credit risks, liquidity risks, business activities and industry risks, operational risks and legal, regulatory and reputational risks.
- GSFCE is a wholly-owned subsidiary of the Goldman Sachs group. GSFCE is primarily involved in issuing securities, lending and entering into derivatives transactions with its affiliates for hedging purposes, and does not carry out any other operating business activities. As a result, GSFCE does not have a significant amount of share capital. Investors are exposed to a significantly greater credit risk by purchasing the Securities where GSFCE is the Issuer than they would be by purchasing securities from an issuer equipped with significantly more capital. If GSFCE becomes insolvent, investors may lose some or all of the amount invested.

Specific Summary).

Qualifications in audit report on historical financial information: Not applicable; there are no qualifications in the audit report of GSG on its historical financial information.

Risk factors associated with the Guarantor:

- GSG is the parent holding company of the group of companies comprising Goldman Sachs. Goldman Sachs is a leading global investment banking, securities and investment management firm that faces a variety of significant risks which may affect GSG's ability to fulfil its obligations under the Securities, including market and credit risks, liquidity risks, business activities and industry risks, operational risks and legal, regulatory and reputational risks.

- Investors are exposed to the credit risk of GSG and its subsidiaries since the assets of GSG consist principally of interests in its subsidiaries. GSG's right as a shareholder to benefit in any distribution of assets of any of its subsidiaries upon the subsidiary's liquidation or otherwise, is junior to the creditors of GSG's subsidiaries. As a result, investors' ability to benefit from any distribution of assets of any of GSG's subsidiaries upon the subsidiary's liquidation or otherwise, is junior to the creditors of GSG's subsidiaries. Any liquidation or otherwise of a subsidiary of GSG may result in GSG being liable for the subsidiary's obligations which could reduce its assets that are available to satisfy its obligations under the guarantee.

What are the key risks that are specific to the Securities?

Risk factors associated with the Securities: The Securities are subject to the following key risks:

The value and quoted price of your Securities (if any) at any time will reflect many factors and cannot be predicted.

- The market price of your Securities prior to maturity may be significantly lower than the purchase price you pay for them. Consequently, if you sell your Securities before the stated scheduled redemption date, you may receive far less than your original invested amount.
- Your Securities may be redeemed in certain extraordinary circumstances set out in the conditions of the Securities prior to scheduled maturity and, in such case, the early redemption amount paid to you may be less than the amount you paid for the Securities and might be zero.
- The principal repaid at maturity will not provide protection from the effect of inflation. After adjustment for inflation, the real return (or yield) on the Securities at maturity could be negative. Accordingly, inflation may have a negative effect on the value of and return on the Securities.

Risks relating to certain features of the Securities:

- The terms and conditions of your Securities provide that the Securities are subject to a cap. Therefore, your ability to participate in any change in the value of the Underlying Asset over the term of the Securities will be limited, no matter how much the price of the Underlying Asset may rise beyond the cap level over the life of the Securities. Accordingly, the return on your Securities may be significantly less than if you had purchased the Underlying Asset directly.

Risks relating to the Underlying Asset:

- *The value of and return on your Securities depends on the performance of the Underlying Asset.* The return on your Securities depends on the performance of the Underlying Asset. The level of the Underlying Asset may be subject to unpredictable change over time. This degree of change is known as "volatility". The volatility of the Underlying Asset may be affected by national and international financial, political, military or economic events, including governmental actions, or by the activities of participants in the relevant markets. Any of these events or activities could adversely affect the value of and return on the Securities. Volatility does not imply direction of the level of the Underlying Asset, though an Underlying Asset that is more volatile is likely to increase or decrease in value more often and/or to a greater extent than one that is less volatile.
- *Past performance of the Underlying Asset is not indicative of future performance.* You should not regard any information about the past performance of the Underlying Asset as indicative of the range of, or trends in, fluctuations in the Underlying Asset that may occur in the future. The Underlying Asset may perform differently (or the same) as in the past, and this could have material adverse effect on the value of and return on your Securities.
- Equity indices are comprised of a synthetic portfolio of shares, and as such, the performance of the Index is dependent upon the macroeconomic factors relating to the shares that underlie such Index, such as interest and price levels on the capital markets, currency developments, political factors as well as company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy, as well as the index composition, which may change over time.

Quali sono i principali rischi che sono specifici per l’Emittente?

L’Emittente è soggetto ai seguenti rischi principali:

- Il pagamento di qualsiasi importo dovuto sugli Strumenti Finanziari è soggetto al rischio di credito dell’Emittente e del Garante. Gli Strumenti Finanziari sono obbligazioni non garantite dell’Emittente e la Garanzia è un’obbligazione non garantita del Garante. Gli investitori dipendono dalla capacità dell’Emittente e del Garante di versare tutti gli importi dovuti sugli Strumenti Finanziari, e pertanto gli investitori sono

soggetti al rischio di credito dell'Emittente e del Garante e ai cambiamenti nella visione di mercato del merito di credito dell'Emittente e del Garante. Né gli Strumenti Finanziari né la Garanzia costituiscono depositi bancari, e non sono assicurati o garantiti da alcuno schema di protezione di compensazione o deposito. Il valore e il rendimento sugli Strumenti Finanziari saranno soggetti al rischio di credito dell'Emittente e ai cambiamenti nella visione di mercato del merito di credito dell'Emittente.

- GSG e le sue controllate consolidate ("**Goldman Sachs**") costituiscono un gruppo leader mondiale nell'*investment banking*, nei titoli e nella gestione degli investimenti e fanno fronte ad una varietà di rischi significativi che potrebbero pregiudicare la capacità dell'Emittente e del Garante di adempiere ai propri obblighi relativi agli Strumenti Finanziari, inclusi i rischi di mercato e di credito, rischi di liquidità, rischi legati all'attività e all'industria, rischi operative e rischi legali, regolamentari e reputazionali.
- GSFCI è una controllata al 100% del gruppo Goldman Sachs. GSFCI si occupa principalmente dell'emissione di titoli, del prestito e della stipula di contratti derivati con le sue società controllate, collegate o sottoposte a comune controllo a scopo di copertura e non svolge altre attività operative. Di conseguenza, GSFCI non dispone di un capitale sociale di rilevante entità. Gli investitori sono esposti a un rischio di credito significativamente maggiore acquistando gli Strumenti Finanziari in cui GSFCI è l'Emittente di quanto lo sarebbero acquistando titoli da un emittente dotato di un capitale significativamente maggiore. Se GSFCI diventa insolvente, gli investitori possono perdere una parte o la totalità dell'importo investito.

INFORMAZIONI PRICIPALI SUGLI STRUMENTI FINANZIARI

Quali sono le caratteristiche principali degli Strumenti Finanziari?

Tipologia e categoria degli Strumenti Finanziari offerti e numero(i) di identificazione dello strumento finanziario:

Gli Strumenti Finanziari sono Strumenti Finanziari pagati in contanti e sono Strumenti Finanziari collegati ad indice in forma di certificati.

Gli Strumenti Finanziari saranno autorizzati tramite Euroclear Bank S.A./N.V. e Clearstream Banking S.A.

La data di emissione degli Strumenti Finanziari è il 20 luglio 2023 (la "**Data di Emissione**"). Per ciascuna Series, il prezzo di emissione degli Strumenti Finanziari è EUR 100 per Strumento Finanziario (il "**Prezzo di Emissione**").

Per ciascuna Serie, ISIN, Codice Comune e Valoren sono ciascuno come specificato nella tabella riportate alla fine della presente Nota di Sintesi.

Valuta, denominazione, numero degli Strumenti Finanziari emessi e durata degli Strumenti Finanziari: La valuta degli Strumenti Finanziari sarà l'Euro ("**EUR**" o la "**Valuta di Regolamento**"). L'importo di calcolo è EUR 100. Per ciascuna Serie, l'ammontare aggregato degli Strumenti Finanziari è 100.000.

Data di Scadenza: 20 luglio 2026. Questa è la data in cui è previsto il rimborso degli Strumenti Finanziari, soggetto a rettifica in conformità ai termini e alle condizioni.

Diritti connessi agli Strumenti Finanziari:

Gli Strumenti Finanziari daranno a ciascun investitore il diritto di ricevere un rendimento, insieme ad alcuni diritti accessori, come il diritto di ricevere la notifica di specifiche determinazioni ed eventi. Il rendimento degli Strumenti Finanziari comprenderà il potenziale pagamento di Importi del Coupon (se applicabile) e l'Importo di Regolamento, e l'Importo(i) del Coupon pagabile dipenderà dall'andamento della Attività Sottostante di riferimento (che è, con riferimento a ciascuna Serie, tale attività sottostante specificata nella colonna intitolata "Attività Sottostante" nella riga corrispondente a tale Serie nella tabella riportate alla fine della presente Nota di Sintesi della Specifica Emissione).

Importo del Coupon: in una Data di Osservazione del Coupon:

- (i) se il Prezzo di Riferimento dell'Attività Sottostante è maggiore o uguale al Livello della Barriera del Coupon per tale Data di Osservazione del Coupon, allora un Importo del Coupon in EUR in relazione a ciascuno Strumento Finanziario sarà pagabile alla successiva Data di Pagamento del Coupon, calcolato secondo la seguente formula:

$$(CA \times CV) - APCA; \text{ o}$$

- (ii) se il Prezzo di Riferimento dell'Attività Sottostante è inferiore al Livello della Barriera del Coupon per tale Data di Osservazione del Coupon, allora nessun Importo del Coupon sarà pagabile alla successiva Data di Pagamento del Coupon.

Importo di Regolamento: salvo che siano stati esercitati anticipatamente, o acquistati e cancellati, l'Importo di Regolamento in EUR pagabile in relazione a ciascuno Strumento Finanziario alla Data di Scadenza sarà un importo calcolato secondo la formula riportata di seguito:

$$CA \times \text{Percentuale di Rimborso}$$

Rimborso Anticipato Non Programmato: Gli Strumenti Finanziari potranno essere rimborsati prima della scadenza programmata: (i) a scelta dell'Emittente (a) qualora l'Emittente determini che un cambiamento della legge applicabile abbia l'effetto di rendere la prestazione dell'Emittente o delle sue società controllate, collegate o sottoposte a comune controllo ai sensi degli Strumenti Finanziari o gli accordi di copertura relativi a Strumenti Finanziari, illegali o eccessivamente onerosi (in tutto o in parte) (o vi sia una sostanziale probabilità che lo diventino nell'immediato futuro), o (b) se del caso, qualora l'Agente di Calcolo determini che taluni eventi di turbativa o eventi di rettifica addizionali come previsti nei termini e nelle condizioni degli Strumenti Finanziari si siano verificati; o (ii) in virtù di comunicazione da parte di un Detentore che dichiari gli Strumenti Finanziari immediatamente esigibili a causa del verificarsi di un evento di *default* che sia ancora in corso.

In tal caso, l'Importo di Rimborso Anticipato Non Programmato pagabile in relazione a tale rimborso anticipato non programmato sarà, per ciascuno Strumento Finanziario, un importo che rappresenta il valore equo di mercato (*fair market value*) degli Strumenti Finanziari, tenendo conto di tutti fattori rilevanti al netto dei costi sostenuti dall'Emittente o da qualsiasi delle sue società controllate, collegate o sottoposte a comune controllo in relazione a tale rimborso anticipato, compresi quelli relativi alla liquidazione del sottostante e/o degli accordi di copertura correlati.

L'Importo di Rimborso Anticipato Non Programmato può essere inferiore al vostro investimento iniziale e pertanto potreste perdere parte del o tutto il vostro investimento per un rimborso anticipato non programmato.

Definizione dei termini:

- **APCA:** per ciascuna Data di Osservazione del Coupon, la *somma* di ciascun Importo del Coupon (se presente) pagato in relazione ad uno Strumento Finanziario in tutte le Date di Pagamento del Coupon (se presenti) precedenti tale Data di Osservazione del Coupon.

- **Livello della Barriera del Coupon:** rispetto a ciascuna Serie e all'Attività Sottostante corrispondente a tale Serie e a ciascuna Data di Osservazione del Coupon, 100 per cento del suo Prezzo di Chiusura Iniziale.
- **Date di Osservazione del Coupon:** le Date di Osservazione del Coupon si verificano in un determinato giorno di luglio di ogni anno, a partire da luglio 2024 e fino a luglio 2026, in ogni caso, soggette a rettifica in conformità ai termini e alle condizioni.
- **Date di Pagamento del Coupon:** un giorno che cade circa cinque giorni lavorativi successivi a ciascuna Data di Osservazione del Coupon, in ciascun caso, soggetto a rettifica in conformità ai termini e condizioni.

- **Prezzo di Chiusura Iniziale:** il Prezzo di Riferimento dell'Attività Sottostante il 19 luglio 2023, soggetto a rettifica in conformità ai termini e alle condizioni.
- **Prezzo di Riferimento:** il livello di chiusura dell'indice dell'Attività Sottostante per la data rilevante.
- **Percentuale di Rimborso:** 100 per cento (100%).

Nessuna offerta, vendita o consegna degli Strumenti Finanziari, o distribuzione di qualsiasi materiale d'offerta relativo agli Strumenti Finanziari, può essere effettuata in o da qualsiasi giurisdizione, salvo in circostanze

che risultino conformi alle leggi e ai regolamenti applicabili. Fermo restando quanto sopra, gli Strumenti Finanziari saranno liberamente trasferibili.

Sarà presentata dall'Emittente (o verrà presentata per suo conto) una richiesta di quotazione e ammissione alle negoziazioni degli Strumenti Finanziari sul mercato EuroTLX, un sistema multilaterale di negoziazione italiano organizzato e gestito da Borsa Italiana S.p.A., che non è un mercato regolamentato ai fini della Direttiva 2014/65/UE e successive modifiche (il "Mercato EuroTLX") con effetto non prima della Data di Emissione.

Fattori di rischio associati al Garante:

- GSG è la holding del gruppo di società che comprende Goldman Sachs. Goldman Sachs è una società leader a livello mondiale nel settore dell'investment banking, dei titoli e della gestione degli investimenti, che si trova ad affrontare una serie di rischi significativi che possono influire sulla capacità di GSG di adempiere ai propri obblighi in materia di titoli, compresi i rischi di mercato e di credito, i rischi di liquidità, le attività commerciali e i rischi del settore, i rischi operativi e i rischi legali, normativi e di reputazione.
- Gli investitori sono esposti al rischio di credito della GSG e delle sue controllate in quanto il patrimonio della GSG è costituito principalmente da partecipazioni nelle sue controllate. Il diritto di GSG, in qualità di azionista, di beneficiare di qualsiasi distribuzione del patrimonio di una delle sue controllate in caso di liquidazione della controllata o in altro modo è subordinato ai creditori delle controllate di GSG. Di conseguenza, la capacità degli investitori di trarre vantaggio da qualsiasi distribuzione di attività di una qualsiasi delle controllate di GSG al momento della liquidazione della controllata o in altro modo è subordinata ai creditori delle controllate di GSG. La liquidazione o meno di una controllata della GSG può comportare la responsabilità della GSG per gli obblighi della controllata, il che potrebbe ridurre i suoi attivi disponibili per soddisfare gli obblighi derivanti dalla garanzia.

Quali sono i rischi principali che sono specifici per gli Strumenti Finanziari?

Fattori di rischio associati agli Strumenti Finanziari: Gli Strumenti Finanziari sono soggetti ai seguenti principali rischi:

Il valore ed il prezzo stimato dei Vostri Strumenti Finanziari (se del caso) in qualsiasi momento dipenderanno da molti fattori e non potranno essere prevedibili.

- Il prezzo di mercato dei Vostri Strumenti Finanziari prima della scadenza può essere significativamente inferiore al prezzo di acquisto pagato. Di conseguenza, se vendete i Vostri Strumenti Finanziari prima della data di rimborso prevista, potreste ricevere molto meno dell'importo investito inizialmente.
- I Vostri Strumenti Finanziari possono essere rimborsati in alcune circostanze straordinarie indicate nelle condizioni degli Strumenti Finanziari prima della scadenza prevista e, in tal caso, l'importo del rimborso anticipato pagato a voi potrebbe essere inferiore all'importo che avete pagato per gli Strumenti Finanziari e potrebbe essere pari a zero.
- Il capitale rimborsato alla scadenza non proteggerà dall'effetto dell'inflazione. Dopo la correzione per l'inflazione, il rendimento reale (o rendimento) degli Strumenti Finanziari alla scadenza potrebbe essere negativo. Di conseguenza, l'inflazione può avere un effetto negativo sul valore e sul rendimento degli Strumenti Finanziari.

Rischi relativi a determinate caratteristiche degli Strumenti Finanziari:

- I termini e le condizioni dei Vostri Strumenti Finanziari prevedono che gli Strumenti Finanziari siano soggetti ad un *cap*. Pertanto, la Vostra capacità di partecipare in qualsiasi cambiamento nel valore dell'Attività Sottostante per tutta la durata degli Strumenti Finanziari sarà limitata, a prescindere da quanto il prezzo dell'Attività Sottostante sia superiore al livello del *cap* nel corso della vita degli Strumenti Finanziari. Di conseguenza, il rendimento sui Vostri Strumenti Finanziari potrebbe essere significativamente inferiore a quello che sarebbe stato se aveste acquistato l'Attività Sottostante direttamente.

Rischi relativi all'Attività Sottostante:

- Il valore ed il rendimento dei Vostri Strumenti Finanziari dipendono dall'andamento dell'Attività Sottostante. Il rendimento dei Vostri Strumenti Finanziari dipende dall'andamento dell'Attività Sottostante. Il livello dell'Attività Sottostante può essere soggetto nel tempo a modifiche imprevedibili. Questo grado di cambiamento è noto come "volatilità". La volatilità dell'Attività Sottostante può essere condizionata da eventi nazionali ed

internazionali di natura finanziaria, politica, militare o economica, incluse azioni governative, o da azioni da parte dei partecipanti al mercato rilevante. Uno qualunque di questi eventi o azioni può influenzare negativamente il valore ed il rendimento degli Strumenti Finanziari. La volatilità non implica una direzione del livello dell'Attività Sottostante, anche se un'Attività Sottostante che è più volatile è più probabile che aumenti o diminuisca di valore più spesso e/o in misura maggiore rispetto ad una che è meno volatile.

- *L'andamento passato dell'Attività Sottostante non è indicativo dell'andamento futuro.* Non dovete considerare informazioni relative all'andamento passato dell'Attività Sottostante come indicative del *range*, delle tendenze, o di fluttuazioni dell'Attività Sottostante che possano verificarsi in futuro. L'Attività Sottostante può avere un andamento diverso (o uguale) rispetto al passato, e ciò può avere un significativo effetto negativo sul valore e sul rendimento dei Vostri Strumenti Finanziari.
- Gli indici azionari sono composti da un portafoglio sintetico di azioni, e pertanto, l'andamento dell'Indice dipende da fattori macroeconomici relativi alle azioni sottostanti tali Indice, quali livelli di interesse e prezzo sui mercati dei capitali, sviluppi valutari e fattori politici così come da fattori specifici relativi alle società come utili, posizione di mercato, situazione di rischio, struttura azionaria e politica di distribuzione, così come pure dalla composizione dell'indice, che può variare nel tempo.
