

**PROHIBITION OF SALES TO UK RETAIL INVESTORS** – The Securities are not intended to be offered, sold, distributed or otherwise made available to, and should not be offered, sold, distributed or otherwise made available to, any retail investor in the United Kingdom ("UK"). For these purposes, a retail investor means a person who is either one (or both) of the following:

- (a) not a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (as amended, the "EUWA"); or
- (b) not a qualified investor as defined in paragraph 15 of Schedule 1 to the Public Offers and Admissions to Trading Regulations 2024 (the "POATRs").

Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of UK domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**"), or disclosure document required by the FCA Product Disclosure Sourcebook ("**DISC**"), for offering, selling or distributing the Securities or otherwise making them available to retail investors in the United Kingdom has been prepared and therefore offering, selling or distributing the Securities or otherwise making them available to any retail investor in the United Kingdom may be unlawful under the UK PRIIPs Regulation or DISC and the Consumer Composite Investments (Designated Activities) Regulations 2024. Notwithstanding the above, in the case where the Issue Terms in respect of any Securities include a legend entitled "Prohibition of Sales to UK Retail Investors" but where the Issuer subsequently prepares and publishes a key information document under the UK PRIIPs Regulation, or a disclosure document as required by DISC, in respect of such Securities, then following such publication, the prohibition on the offering, sale, distribution or otherwise making available the Securities to a retail investor in the United Kingdom as described above and in such legend shall no longer apply.

The Securities do not constitute a participation in a Collective Investment Scheme within the meaning of the Swiss Federal Act on Collective Investment Schemes ("**CISA**"). The Securities are neither subject to the authorisation nor to the supervision by the Swiss Financial Market Supervisory Authority FINMA and investors do not benefit from the specific investor protection provided under the CISA. Investors should be aware that they are exposed to the credit risk of the relevant Issuer and the relevant Guarantor, if any, respectively.

## **10. UNITED STATES TAX CONSIDERATIONS**

### **Section 871(m) Withholding Tax**

The U.S. Treasury Department has issued regulations under which amounts paid or deemed paid on certain financial instruments that are treated as attributable to U.S.-source dividends could be treated, in whole or in part depending on the circumstances, as a "dividend equivalent" payment that is subject to tax at a rate of 30 per cent. (or a lower rate under an applicable treaty). We have determined that, as of the issue date of the Certificates, the Certificates will not be subject to withholding under these rules. In

certain limited circumstances, however, it is possible for United States alien holders to be liable for tax under these rules with respect to a combination of transactions treated as having been entered into in connection with each other even when no withholding is required. United States alien holders should consult their tax advisor concerning these regulations, subsequent official guidance and regarding any other possible alternative characterisations of their Certificates for United States federal income tax purposes. See "*United States Tax Considerations – Dividend Equivalent Payments*" in the Base Prospectus for a more comprehensive discussion of the application of Section 871(m) to the Certificates.

### **Classification for U.S. Tax Purposes**

We intend to treat the Certificates, for United States federal income tax purposes, in the manner described under "*United States Tax Considerations – Securities Issued by GSFCl – Securities that are Classified as Debt for United States Tax Purposes*" in the Base Prospectus, which description includes details for United States alien holders eligible for an exemption from United States federal withholding tax on payments of principal and interest. However this determination is not binding on the United States Internal Revenue Service ("IRS") and the IRS may disagree with the treatment. In the case of Certificates that bear periodic coupons, the consequences of the IRS disagreeing with the treatment include the possibility that coupon payments made to you (including any such coupon payments made at maturity) could be subject to tax at a 30 per cent. rate or at a lower rate specified by an applicable income tax treaty under an "other income" or similar provision. No additional amounts will be paid for such tax by us or by the applicable withholding agent. Amounts paid upon the redemption or maturity of the Certificates are not expected to be subject to U.S. withholding tax and, if we (including any of our affiliates) are the withholding agent, we do not intend to withhold on such amounts. You should consult your own tax advisor regarding the U.S. tax consequences of purchasing, holding and disposing of the Certificates.

## **11. BENCHMARKS REGULATION**

Not Applicable. As far as the Issuer is aware and as of the date of these Final Terms, Solactive BTP 10Y Annual Comp. 11am Yield Index is not within scope of the EU Benchmarks Regulation and Solactive AG, as administrator of Solactive BTP 10Y Annual Comp. 11am Yield Index, is not required, in respect of Solactive BTP 10Y Annual Comp. 11am Yield Index, to be registered on the register established and maintained by ESMA pursuant to Article 36 of the EU Benchmarks Regulation. However, as at the date of these Final Terms, Solactive AG appears in that register either (i) pursuant to the transitional provisions in Article 51 of the EU Benchmarks Regulation, in which case, based on currently available information, the benchmarks administered by Solactive AG are and are expected to remain outside the scope of the EU Benchmarks Regulation and Solactive AG will be removed from the Register on or before October 1, 2026 or (ii) because it also administers other benchmark(s) which are within scope of the EU Benchmarks Regulation.

The below examples are not exhaustive of all possible scenarios.

#### AUTOMATIC EARLY EXERCISE AND COUPON AMOUNT

**Example – Automatic Early Exercise and Coupon Amount:** *The Reference Price of the Underlying Asset on the Autocall Observation Date for the Automatic Early Exercise Date scheduled to fall on March 23, 2028 is less than or equal to its Autocall Level for such Autocall Observation Date. The Coupon Value Multiplier corresponding to the Coupon Observation Date for the Coupon Payment Date scheduled to fall on March 23, 2028 is two.*

In this Example, the Certificates will be redeemed on the Automatic Early Exercise Date immediately following such Autocall Observation Date by payment in respect of each Certificate of an amount in EUR equal to the Autocall Event Amount, i.e., EUR 100.00. Additionally, a Coupon Amount per Certificate will be payable on the Coupon Payment Date immediately following such Autocall Observation Date, and such Coupon Amount will be an amount in EUR equal to the *difference* between (i) the *product* of (a) the Calculation Amount, *multiplied* by (b) 0.11, *minus* (ii) the *aggregate* of the Coupon Amount(s) (if any) per Certificate previously paid on the Coupon Payment Date(s) preceding such Autocall Observation Date.

**Example – no Automatic Early Exercise but Coupon Amount:** *The Reference Price of the Underlying Asset on the Autocall Observation Date for the Automatic Early Exercise Date scheduled to fall on March 23, 2028 is greater than its Autocall Level for such Autocall Observation Date, but the Reference Price of the Underlying Asset for such Autocall Observation Date is less than or equal to its Coupon Barrier Level. The Coupon Value Multiplier corresponding to the Coupon Observation Date for the Coupon Payment Date scheduled to fall on March 23, 2028 is two.*

In this Example, the Certificates will not be redeemed on the Automatic Early Exercise Date immediately following such Autocall Observation Date and no Automatic Early Exercise Amount will be payable on such date. A Coupon Amount per Certificate will be payable on the Coupon Payment Date immediately following such Autocall Observation Date, and such Coupon Amount will be an amount in EUR equal to the *difference* between (i) the *product* of (a) the Calculation Amount, *multiplied* by (b) 0.11, *minus* (ii) the *aggregate* of the Coupon Amount(s) (if any) per Certificate previously paid on the Coupon Payment Date(s) preceding such Autocall Observation Date.

**Example – no Automatic Early Exercise and no Coupon Amount:** *The Reference Price of the Underlying Asset on the Autocall Observation Date for the Automatic Early Exercise Date scheduled to fall on March 23,*

***2028 is greater than its Coupon Barrier Level.***

In this Example, the Certificates will not be redeemed on the Automatic Early Exercise Date immediately following such Autocall Observation Date and no Automatic Early Exercise Amount will be payable on such date. No Coupon Amount will be payable on the Coupon Payment Date immediately following such Autocall Observation Date.

**SETTLEMENT AMOUNT AND FINAL COUPON AMOUNT**

**Example – neutral scenario and Coupon Amount:** *The Certificates have not been previously redeemed on an Automatic Early Exercise Date, the Reference Price of the Underlying Asset on the final Coupon Observation Date is less than or equal to its Coupon Barrier Level for the final Coupon Observation Date. The Coupon Value Multiplier corresponding to the final Coupon Observation Date is five.*

In this Example, the Certificates will be redeemed on the Maturity Date and the Settlement Amount payable in respect of each Certificate will be an amount in EUR equal to EUR 100. Additionally, a Coupon Amount per Certificate will be payable on the Coupon Payment Date falling on the Maturity Date, and such Coupon Amount will be an amount in EUR equal to the *difference* between (i) the *product* of (a) the Calculation Amount, *multiplied* by (b) 0.275, *minus* (ii) the *aggregate* of the Coupon Amounts (if any) per Certificate previously paid on the Coupon Payment Dates preceding the final Coupon Observation Date.

**Example – neutral scenario but no Coupon Amount:** *The Certificates have not been previously redeemed on an Automatic Early Exercise Date, the Reference Price of the Underlying Asset on the final Coupon Observation Date is greater than its Coupon Barrier Level for the final Coupon Observation Date.*

In this Example, the Certificates will be redeemed on the Maturity Date and the Settlement Amount payable in respect of each Certificate will be an amount in EUR equal to EUR 100. No Coupon Amount will be payable on the Coupon Payment Date falling on the Maturity Date.

#### **What are the key risks that are specific to the Issuer?**

The Issuer is subject to the following key risks:

- The payment of any amount due on the Securities is subject to the credit risk of the Issuer and the Guarantor. The Securities are the Issuer's unsecured obligations and the Guarantee is the Guarantor's unsecured obligation. Investors are dependent on the Issuer's and Guarantor's ability to pay all amounts due on the Securities, and therefore investors are subject to the Issuer's and Guarantor's credit risk and to changes in the market's view of the Issuer's and Guarantor's creditworthiness. Neither the Securities nor the Guarantee are bank deposits, and neither are insured or guaranteed by any compensation or deposit protection scheme. The value of and return on the Securities will be subject to the Issuer's and the Guarantor's credit risk and to changes in the market's view of the Issuer's and the Guarantor's creditworthiness.
- GSG and its consolidated subsidiaries ("**Goldman Sachs**") is a leading global investment banking, securities and investment management group and faces a variety of significant risks which may affect the Issuer's and the Guarantor's ability to fulfil their obligations under the Securities, including market risks, liquidity risks, credit risks, operational risks, legal and regulatory risks, competition risks and market developments and general business environment risks.
- GSFCI is a wholly-owned subsidiary of the Goldman Sachs group. GSFCI is primarily involved in issuing securities, lending and entering into derivatives transactions with its affiliates for hedging purposes, and does not carry out any other operating business activities. As a result, GSFCI does not have a significant amount of share capital. Investors are exposed to a significantly greater credit risk by purchasing the Securities where GSFCI is the Issuer than they would be by purchasing securities from an issuer equipped with significantly more capital. If GSFCI becomes insolvent, investors may lose some or all of the amount invested.

<b>What are the key risks that are specific to the Securities?</b>		
<b>Risk factors associated with the Securities:</b> The Securities are subject to the following key risks:		
<ul style="list-style-type: none"> <li>The market price of your Securities prior to maturity may be significantly lower than the purchase price you pay for them. Consequently, if you sell your Securities before the stated scheduled redemption date, you may receive far less than your original invested amount.</li> <li>Your Securities may be redeemed in certain extraordinary circumstances set out in the conditions of the Securities prior to scheduled maturity and, in such case, the early redemption amount paid to you may be less than the amount you paid for the Securities and might be zero.</li> </ul>		

- The principal repaid at maturity will not provide protection from the effect of inflation. After adjustment for inflation, the real return (or yield) on the Securities at maturity could be negative. Accordingly, inflation may have a negative effect on the value of and return on the Securities.

*Risks relating to certain features of the Securities:*

- As the terms and conditions of your Securities provide that the Securities are subject to a cap, your ability to participate in any change in the value of the Underlying Asset over the term of the Securities will be limited, no matter how much the level or price of the Underlying Asset may rise beyond the cap level over the life of the Securities. Accordingly, the return on your Securities may be significantly less than if you had purchased the Underlying Asset directly.

*Risks relating to the Underlying Asset:*

- *The value of and return on your Securities depends on the performance of the Underlying Asset.* The return on your Securities depends on the performance of the Underlying Asset. The level or price of an Underlying Asset may be subject to unpredictable change over time. This degree of change is known as "volatility". The volatility of an Underlying Asset may be affected by national and international financial, political, military or economic events, including governmental actions, or by the activities of participants in the relevant markets. Any of these events or activities could adversely affect the value of and return on the Securities. Volatility does not imply direction of the level or price of an Underlying Asset, though an Underlying Asset that is more volatile is likely to increase or decrease in value more often and/or to a greater extent than one that is less volatile.
- *Past performance of an Underlying Asset is not indicative of future performance.* You should not regard any information about the past performance of an Underlying Asset as indicative of the range of, or trends in, fluctuations in such Underlying Asset that may occur in the future. An Underlying Asset may perform differently (or the same) as in the past, and this could have material adverse effect on the value of and return on your Securities.
- *Various unpredictable factors may affect the performance of non-exchange indices:* Non-exchange indices are comprised of a synthetic portfolio of components or assets, and as such, the performance of a non-exchange index may be dependent upon macroeconomic factors relating to the components or assets that underlie such non-exchange index, such as interest and price levels on the capital markets, currency developments, political factors, as well as the index composition, which may change over time.
