10. UNITED STATES TAX CONSIDERATIONS

Section 871(m) Withholding Tax

The U.S. Treasury Department has issued regulations under which amounts paid or deemed paid on certain financial instruments that are treated as attributable to U.S.-source dividends could be treated, in whole or in part depending on the circumstances, as a "dividend equivalent" payment that is subject to tax at a rate of 30 per cent. (or a lower rate under an applicable treaty). We have determined that, as of the issue date of the Certificates, the Certificates will not be subject to withholding under these rules. In certain limited circumstances, however, it is possible for United States alien holders to be liable for tax under these rules with respect to a combination of transactions treated as having been entered into in connection with each other even when no withholding is required. United States alien holders should consult their tax advisor concerning these regulations, subsequent official guidance and regarding any other possible alternative characterisations of their Certificates for United States federal income tax purposes. See "*United States Tax Considerations – Dividend Equivalent Payments*" in the Base Prospectus for a more comprehensive discussion of the application of Section 871(m) to the Certificates.

Classification for U.S. Tax Purposes

We intend to treat the Certificates, for United States federal income tax purposes, in the manner described under "*United States Tax Considerations – Securities Issued by GSFCI – Securities that are Classified as Debt for United States Tax Purposes*" in the Base Prospectus, which description includes details for United States alien holders eligible for an exemption from United States federal withholding tax on payments of principal and interest. However this determination is not binding on the United States Internal Revenue Service ("**IRS**") and the IRS may disagree with the treatment. In the case of Certificates that bear periodic coupons, the consequences of the IRS disagreeing with the treatment include the possibility that coupon payments made to you (including any such coupon payments made at maturity) could be subject to tax at a 30 per cent. rate or at a lower rate specified by an applicable

income tax treaty under an "other income" or similar provision. No additional amounts will be paid for such tax by us or by the applicable withholding agent. Amounts paid upon the redemption or maturity of the Certificates are not expected to be subject to U.S. withholding tax and, if we (including any of our affiliates) are the withholding agent, we do not intend to withhold on such amounts. You should consult your own tax advisor regarding the U.S. tax consequences of purchasing, holding and disposing of the Certificates.

EXAMPLES

THE EXAMPLES PRESENTED BELOW ARE FOR ILLUSTRATIVE PURPOSES ONLY.

For the purposes of each Example:

- the Calculation Amount is EUR 1,000;

- in respect of the Underlying Asset, the Barrier Level is 100% of its Asset Initial Price;
- the Protection Level is 1.00, the Participation is 1.00 and the Strike is 1.00; and
- the Minimum Percentage is 100.00%.

The below examples are presented for illustrative purposes only and are intended to provide information on how the return on your investment will be calculated depending upon the hypothetical performance of the Underlying Asset under a variety of scenarios. Amounts payable under the Securities will be determined in accordance with the terms and conditions of the Securities as set out above in the Contractual Terms section of these Final Terms and in the applicable conditions set forth in the Base Prospectus as supplemented. The below examples are not exhaustive of all possible scenarios.

OPTIONAL REDEMPTION AMOUNT

The Optional Redemption Amount (Call) in respect of the Optional Redemption Date (Call) scheduled to fall on October 28, 2026, in respect of each Series of Securities for which the ISIN is specified in its respective table set out in "Specific Provisions for each Series" above as:

If the Issuer redeems all of the Certificates in respect of the Series of Securities for which the ISIN is JE00BS6C1P75 on the Optional Redemption Date (Call) scheduled to fall on October 28, 2026 by giving notice to the Holders of such Series of Securities on or prior to the corresponding Call Option Notice Date, the Optional Redemption Amount (Call) payable in respect of each Certificate of such Series of Securities on the Optional Redemption Date (Call) will be EUR 1,082.50.

SETTLEMENT AMOUNT

Example 1 – positive scenario: The Issuer does not redeem the Securities on an Optional Redemption Date (Call) by giving notice to the Holders on or before the corresponding Call Option Notice Date, and the Final Closing Price is greater than or equal to the Barrier Level. The Final Closing Price is 150% of the Asset Initial Price.

The Settlement Amount payable per Certificate on the Maturity Date will be EUR 1,500 (being an amount in the Settlement Currency equal to the *product* of (i) the Calculation Amount, *multiplied* by (ii) the *sum* of (a) the Protection Level, *plus* (b) the *product* of (I) the Participation, *multiplied* by (II) the *greater* of (A) zero, and (B) the *difference* between (1) the Underlying Performance, *minus* (2) the Strike).

Example 2 – neutral scenario: The Issuer does not redeem the Securities on an Optional Redemption Date (Call) by giving notice to the Holders on or before the corresponding Call Option Notice Date, and the Final Closing Price is less than the Barrier Level.

The Settlement Amount payable per Certificate on the Maturity Date will be EUR 1,000 (being an amount in the Settlement Currency equal to the *product* of (i) the Calculation Amount, *multiplied* by (ii) the Minimum Percentage).

What are the key risks that are specific to the Issuer?

The Issuer is subject to the following key risks:

- The payment of any amount due on the Securities is subject to the credit risk of the Issuer and the Guarantor. The Securities are the Issuer's unsecured obligations and the Guarantee is the Guarantor's unsecured obligation. Investors are dependent on the Issuer's and Guarantor's ability to pay all amounts due on the Securities, and therefore investors are subject to the Issuer's and Guarantor's credit risk and to changes in the market's view of the Issuer's and Guarantor's creditworthiness. Neither the Securities nor the Guarantee are bank deposits, and neither are insured or guaranteed by any compensation or deposit protection scheme. The value of and return on the Securities will be subject to the Issuer's and the Guarantor's credit risk and to changes in the market's view of the Issuer's and the Guarantor's creditworthiness.
- GSG and its consolidated subsidiaries ("**Goldman Sachs**") is a leading global investment banking, securities and investment management group and faces a variety of significant risks which may affect the Issuer's and the Guarantor's ability to fulfil their obligations under the Securities, including market risks, liquidity risks, credit risks, operational risks, legal and regulatory risks, competition risks and market developments and general business environment risks.
- GSFCI is a wholly-owned subsidiary of the Goldman Sachs group. GSFCI is primarily involved in issuing securities, lending and entering into derivatives transactions with its affiliates for hedging purposes, and does not carry out any other operating business activities. As a result, GSFCI does not have a significant amount of share capital. Investors are exposed to a significantly greater credit risk by purchasing the Securities where GSFCI is the Issuer than they would be by purchasing securities from an issuer equipped with significantly more capital. If GSFCI becomes insolvent, investors may lose some or all of the amount invested.

In such case, the Non-scheduled Early Repayment Amount payable on such unscheduled early redemption shall be, for each Security, an amount representing the fair market value of the Security taking into account all relevant factors less all costs incurred by the Issuer or any of its affiliates in connection with such early redemption, including those related to unwinding of any underlying and/or related hedging arrangement. ***The Non-scheduled Early Repayment Amount may be less than your initial investment and therefore you may lose some or all of your investment on an unscheduled early redemption.***

No offers, sales or deliveries of the Securities, or distribution of any offering material relating to the Securities, may be made in or from any jurisdiction except in circumstances that will result in compliance with any applicable laws and regulations. Subject to the above, the Securities will be freely transferable.

Qualifications in audit report on historical financial information: Not applicable; there are no qualifications in the audit report of GSG on its historical financial information.

Risk factors associated with the Guarantor:

- GSG is the parent holding company of the group of companies comprising Goldman Sachs. Goldman Sachs is a leading global investment banking, securities and investment management firm that faces a variety of significant risks which may affect GSG's ability to fulfil its obligations under the Securities, including market risks, liquidity risks, credit risks, operational risks, legal and regulatory risks, competition risks and market developments and general business environment risks.
- Investors are exposed to the credit risk of GSG and its subsidiaries since the assets of GSG consist principally of interests in its subsidiaries. GSG's right as a shareholder to benefit in any distribution of assets of any of its subsidiaries upon the subsidiary's liquidation or otherwise, is junior to the creditors of GSG's subsidiaries. As a result, investors' ability to benefit from any distribution of assets of any of GSG's subsidiaries upon the subsidiary's

liquidation or otherwise, is junior to the creditors of GSG's subsidiaries. Any liquidation or otherwise of a subsidiary of GSG may result in GSG being liable for the subsidiary's obligations which could reduce its assets that are available to satisfy its obligations under the guarantee.

What are the key risks that are specific to the Securities?

Risk factors associated with the Securities: The Securities are subject to the following key risks:

- The market price of your Securities prior to maturity may be significantly lower than the purchase price you pay for them. Consequently, if you sell your Securities before the stated scheduled redemption date, you may receive far less than your original invested amount.
- Your Securities may be redeemed in certain extraordinary circumstances set out in the conditions of the Securities prior to scheduled maturity and, in such case, the early redemption amount paid to you may be less than the amount you paid for the Securities and might be zero.
- The principal repaid at maturity will not provide protection from the effect of inflation. After adjustment for inflation, the real return (or yield) on the Securities at maturity could be negative. Accordingly, inflation may have a negative effect on the value of and return on the Securities.

Risks relating to certain features of the Securities:

- Your Securities may be redeemed early as the Issuer has a call option and may exercise it. The terms of your Securities provide that we have the right to call the Securities. Therefore, following the exercise by the Issuer of such option, you will no longer be able to realise your expectations for a gain in the value of such Securities and you may not be able to reinvest the proceeds from such redemption at a comparable return for a similar level of risk.

Risks relating to the Underlying Asset:

- *The value of and return on your Securities depends on the performance of the Underlying Asset.* The return on your Securities depends on the performance of the Underlying Asset. The level or price of an Underlying Asset may be subject to unpredictable change over time. This degree of change is known as "volatility". The volatility of an Underlying Asset may be affected by national and international financial, political, military or economic events, including governmental actions, or by the activities of participants in the relevant markets. Any of these events or activities could adversely affect the value of and return on the Securities. Volatility does not imply direction of the level or price of an Underlying Asset, though an Underlying Asset that is more volatile is likely to increase or decrease in value more often and/or to a greater extent than one that is less volatile.
- *Past performance of an Underlying Asset is not indicative of future performance.* You should not regard any information about the past performance of an Underlying Asset as indicative of the range of, or trends in, fluctuations in such Underlying Asset that may occur in the future. An Underlying Asset may perform differently (or the same) as in the past, and this could have material adverse effect on the value of and return on your Securities.
- The performance of Shares is dependent upon macroeconomic factors, such as interest and price levels on the capital markets, currency developments, political factors as well as company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy, as well as business risks faced by the issuers thereof. Any one or a combination of such factors could adversely affect the performance of the Underlying Asset which, in turn, would have a negative effect on the value of and return on your Securities.

Quali sono i principali rischi che sono specifici per l'Emittente?

L'Emittente è soggetto ai seguenti rischi principali:

Il pagamento di qualsiasi importo dovuto sugli Strumenti Finanziari è soggetto al rischio di credito dell'Emittente e del Garante. Gli Strumenti Finanziari sono obbligazioni non garantite dell'Emittente e la Garanzia è un'obbligazione non garantita del Garante. Gli investitori dipendono dalla capacità dell'Emittente e del Garante di versare tutti gli importi dovuti sugli Strumenti Finanziari, e pertanto gli investitori sono soggetti al rischio di credito dell'Emittente e del Garante e ai cambiamenti nella visione di mercato del merito di credito dell'Emittente e del Garante. Né gli Strumenti Finanziari né la Garanzia costituiscono depositi bancari, e non sono assicurati o garantiti da alcuno schema di protezione di compensazione o deposito. Il valore e il rendimento sugli Strumenti Finanziari saranno soggetti al rischio di credito dell'Emittente e del Garante e ai cambiamenti nella visione di mercato del merito di credito dell'Emittente e del Garante.

GSG e le sue controllate consolidate ("Goldman Sachs") costituiscono un gruppo leader mondiale nell'investment banking, nei titoli e nella gestione degli investimenti e fanno fronte ad una varietà di rischi significativi che potrebbero pregiudicare la capacità dell'Emittente e del Garante di adempiere ai propri obblighi relativi agli Strumenti

Finanziari, inclusi i rischi di mercato, rischi di liquidità, rischi di credito, rischi operativi, rischi legali e regolamentari, rischi di concorrenza e sviluppi di mercato e rischi generali del contesto aziendale.

GSFCI è una controllata al 100% del gruppo Goldman Sachs. GSFCI si occupa principalmente dell'emissione di strumenti finanziari, del prestito e della stipula di contratti derivati con le sue società controllate, collegate o sottoposte a comune controllo a scopo di copertura e non svolge altre attività operative. Di conseguenza, GSFCI non dispone di un capitale sociale di rilevante entità. Gli investitori sono esposti a un rischio di credito significativamente maggiore acquistando gli Strumenti Finanziari in cui GSFCI è l'Emittente di quanto lo sarebbero acquistando titoli da un emittente dotato di un capitale significativamente maggiore. Se GSFCI diventa insolvente, gli investitori possono perdere una parte o la totalità dell'importo investito.

Rimborso Anticipato Non Programmato: Gli Strumenti Finanziari potranno essere rimborsati prima della scadenza programmata: (i) a opzione dell'Emittente (a) qualora l'Emittente determini che un cambiamento della legge applicabile abbia l'effetto di rendere la prestazione dell'Emittente o delle sue società controllate, collegate o sottoposte a comune controllo ai sensi degli Strumenti Finanziari o gli accordi di copertura relativi a Strumenti Finanziari, illegali o eccessivamente onerosi (in tutto o in parte) (o vi sia una sostanziale probabilità che lo diventino nell'immediato futuro), o (b) se del caso, qualora l'agente di calcolo determini che taluni ulteriori eventi di turbativa o eventi di rettifica come previsti nei termini e nelle condizioni degli Strumenti Finanziari si siano verificati; o (ii) in virtù di comunicazione da parte di un detentore che dichiari gli Strumenti Finanziari immediatamente esigibili a causa del verificarsi di un evento di *default* che sia ancora in corso.

In tal caso, l'Importo di Rimborso Anticipato Non Programmato pagabile in relazione a tale rimborso anticipato non programmato sarà, per ciascuno Strumento Finanziario, un importo che rappresenta il valore equo di mercato (*fair market value*) degli Strumenti Finanziari, tenendo conto di tutti i fattori rilevanti al netto dei costi sostenuti dall'Emittente o da qualsiasi delle sue società controllate, collegate o sottoposte a comune controllo in relazione a tale rimborso anticipato, compresi quelli relativi alla liquidazione del sottostante e/o degli accordi di copertura correlati. **L'Importo di Rimborso Anticipato Non Programmato può essere inferiore al vostro investimento iniziale e pertanto potreste perdere parte del o tutto il vostro investimento per un rimborso anticipato non programmato.**

Fattori di rischio associati al Garante:

GSG è la holding del gruppo di società che comprende Goldman Sachs. Goldman Sachs è una società leader a livello mondiale nel settore dell'investment banking, dei titoli e della gestione degli investimenti, che si trova ad affrontare una serie di rischi significativi che possono influire sulla capacità di GSG di adempiere ai propri obblighi in materia di titoli,

compresi i rischi di mercato, i rischi di liquidità, i rischi di credito, i rischi operativi, i rischi legali e normativi, i rischi di concorrenza e sviluppi di mercato e i rischi generali del contesto aziendale.

Gli investitori sono esposti al rischio di credito della GSG e delle sue controllate in quanto il patrimonio della GSG è costituito principalmente da partecipazioni nelle sue controllate. Il diritto di GSG, in qualità di azionista, di beneficiare di qualsiasi distribuzione del patrimonio di una delle sue controllate in caso di liquidazione della controllata o in altro modo è subordinato ai creditori delle controllate di GSG. Di conseguenza, la capacità degli investitori di trarre vantaggio da qualsiasi distribuzione di attività di una qualsiasi delle controllate di GSG al momento della liquidazione della controllata o in altro modo è subordinata ai creditori delle controllate di GSG. La liquidazione o meno di una controllata della GSG può comportare la responsabilità della GSG per gli obblighi della controllata, il che potrebbe ridurre i suoi attivi disponibili per soddisfare gli obblighi derivanti dalla garanzia.

Quali sono i rischi principali che sono specifici per gli Strumenti Finanziari?

Fattori di rischio associati agli Strumenti Finanziari: Gli Strumenti Finanziari sono soggetti ai seguenti principali rischi:

Il prezzo di mercato degli Strumenti Finanziari prima della scadenza può essere significativamente inferiore al prezzo di acquisto pagato. Di conseguenza, se vendete i Vostri Strumenti Finanziari prima della data di regolamento prevista, potreste ricevere molto meno dell'importo investito inizialmente.

I Vostri Strumenti Finanziari possono essere regolati in determinate circostanze straordinarie indicate nelle condizioni degli Strumenti Finanziari prima della scadenza prevista e, in tal caso, l'importo di regolamento anticipato pagato a Voi potrebbe essere inferiore all'importo che avete pagato per gli Strumenti Finanziari. In alcune circostanze, tale importo di rimborso anticipato può essere pari a zero.

Il capitale rimborsato a scadenza non fornirà protezione dall'effetto dell'inflazione. Dopo l'adeguamento per l'inflazione, il rendimento reale (o yield) degli Strumenti Finanziari a scadenza potrebbe essere negativo. Di conseguenza, l'inflazione potrebbe avere un effetto negativo sul valore e sul rendimento degli Strumenti Finanziari.

Rischi relativi a determinate caratteristiche degli Strumenti Finanziari:

- I tuoi Strumenti Finanziari potrebbero essere rimborsati anticipatamente poiché l'Emittente dispone di un'opzione di rimborso anticipato (call) e potrebbe esercitarla. I termini dei tuoi Strumenti Finanziari prevedono che abbiamo il diritto di richiamare (call) gli Strumenti Finanziari. Pertanto, a seguito dell'esercizio di tale opzione da parte dell'Emittente, non potrai più realizzare le tue aspettative di guadagno sul valore di tali Strumenti Finanziari e potresti non essere in grado di reinvestire i proventi di tale rimborso a un rendimento comparabile per un livello di rischio simile.

Rischi relativi all'Attività Sottostante:

Il valore ed il rendimento dei Vostri Strumenti Finanziari dipendono dall'andamento delle Attività Sottostanti. Il rendimento dei Vostri Strumenti Finanziari dipende dall'andamento dell'Attività Sottostanti. Il livello o il prezzo di un'Attività Sottostante può essere soggetto nel tempo a modifiche imprevedibili. Questo grado di cambiamento è noto come "volatilità". La volatilità dell'Attività Sottostante può essere condizionata da eventi nazionali ed internazionali di natura finanziaria, politica, militare o economica, incluse azioni governative, o da azioni da parte dei partecipanti al mercato rilevante. Uno qualunque di questi eventi o azioni può influenzare negativamente il valore ed il rendimento degli Strumenti Finanziari. La volatilità non implica una direzione del livello o del prezzo di un'Attività Sottostante, anche se un'Attività Sottostante che è più volatile è più probabile che aumenti o diminuisca di valore più spesso e/o in misura maggiore rispetto ad una che è meno volatile.

L'andamento passato di un'Attività Sottostante non è indicativo dell'andamento futuro. Non dovete considerare informazioni relative all'andamento passato di un'Attività Sottostante come indicative del *range*, delle tendenze, o di fluttuazioni di tale Attività Sottostante che possano verificarsi in futuro. Un'Attività Sottostante può avere un andamento diverso (o uguale) rispetto al passato, e ciò può avere un significativo effetto negativo sul valore e sul rendimento dei Vostri Strumenti Finanziari.

L'andamento delle Azioni dipende da fattori macroeconomici, come i livelli di interesse e prezzo sui mercati dei capitali, sviluppi valutari, fattori politici così come fattori specifici relativi alle società quali utili, posizione di mercato, situazione di rischio, struttura azionaria e politica di distribuzione, così come pure rischi di *business* cui sono esposti i relativi emittenti. Uno qualsiasi di tali fattori o una loro combinazione possono influenzare negativamente l'andamento dell'Attività Sottostante che, a sua volta, avrebbe un effetto negativo sul valore e sul rendimento dei Vostri Strumenti Finanziari.

SULL'AMMISSIONE ALLE NEGOZIAZIONI SU DI UN MERCATO REGOLAMENTATO**

A quali condizioni e con quale tempistica posso investire nello Strumento Finanziario?

Regolamento dell'offerta:

Regolamento del Periodo di Offerta sul Primario:

Un'offerta degli Strumenti Finanziari può essere effettuata dall'Offerente Autorizzato con procedura diversa da quanto previsto ai sensi dell'Articolo 1(4) del Regolamento Prospetti UE, nella Repubblica Italiana (la "**Giurisdizione dell'Offerta al Pubblico**"), durante il periodo che inizia il giorno in cui gli Strumenti Finanziari saranno ammessi alle negoziazioni sul Mercato EuroTLX e termina nella data in cui l'Offerente Autorizzato cessa di svolgere attività di marketing attivo in relazione agli Strumenti Finanziari nella Giurisdizione dell'Offerta Pubblica, data che si prevede cada intorno al 17 novembre 2026 (il "**Periodo di Offerta**").

L'Offerente Autorizzato corrisponderà compensi a terzi per lo svolgimento di attività pubblicitarie. In particolare, l'Offerente Autorizzato si è impegnato a versare a un consulente di marketing un importo ("**Commissioni di Marketing**") pari al 2,00 per cento (2,00%) del Prezzo di Emissione per ciascuno Strumento Finanziario, calcolato tenendo conto di diversi fattori, tra cui le aspettative relative al quantitativo di Strumenti Finanziari venduti (e acquistati) sul Mercato EuroTLX durante il periodo di marketing (ossia dal giorno di ammissione alla negoziazione degli Strumenti Finanziari sul Mercato EuroTLX fino alla data in cui il consulente di marketing cessa di svolgere attività di marketing attivo in relazione agli Strumenti Finanziari nella Giurisdizione dell'Offerta Pubblica, data che si prevede cada intorno al 17 novembre 2026). Le Commissioni di Marketing possono essere ridotte a discrezione dell'Offerente Autorizzato.

Il Periodo di Offerta è soggetto a rettifica da parte o per conto dell'Emittente in conformità alla normativa applicabile.

Gli Strumenti Finanziari saranno offerti al prezzo di mercato che sarà determinato dall'Offerente Autorizzato su base continua in base alle condizioni di mercato prevalenti in quel momento. A seconda delle condizioni di mercato, il prezzo d'offerta potrà essere uguale, superiore o inferiore al Prezzo di Emissione degli Strumenti Finanziari.

Method Investments & Advisory Ltd (in qualità di specialista nominato secondo le regole del Mercato EuroTLX) (lo "**Specialista**") pubblicherà i prezzi di offerta (e i prezzi bid) ai quali lo Specialista è disposto a vendere (e acquistare) gli Strumenti Finanziari sul Mercato EuroTLX.

Gli Strumenti Finanziari possono essere acquistati da ciascun intermediario approvato e ammesso alla negoziazione sul Mercato EuroTLX da parte di Borsa Italiana S.p.A. (ciascuno, un "**Intermediario Autorizzato**") e l'acquisto ed il regolamento degli Strumenti Finanziari deve essere effettuato in conformità alle normali regole del Mercato EuroTLX.

Stima delle spese caricate sull'investitore dall'Emittente/offerdente:

Si veda il precedente punto intitolato "Offerente Autorizzato".

L'Emittente richiederà l'ammissione alla negoziazione degli Strumenti Finanziari sul Mercato EuroTLX.

Perché viene prodotto il Prospetto?

Ragioni per l'offerta o per l'ammissione a negoziazione su un mercato regolamentato, incassi netti attesi e uso degli incassi: gli incassi netti dell'offerta saranno usati dall'Emittente per procurare fondi aggiuntivi alle proprie attività e per scopi societari generali (i.e., a fini di profitto e/o a copertura di certi rischi).

Accordo di sottoscrizione con acquisto a fermo: L'offerta degli Strumenti Finanziari non è soggetta ad un accordo di sottoscrizione con acquisto a fermo.

Conflitti significativi relativi all'emissione/offerta:

L'Emittente è soggetto a numerosi conflitti di interesse tra i propri interessi e quelli dei portatori degli Strumenti Finanziari, inclusi: (a) rispetto a certi calcoli e decisioni, ci potrebbe essere una differenza di interesse tra gli investitori e l'Emittente, (b) nel normale corso delle proprie attività l'Emittente (o sue società controllate, collegate, o sottoposte a comune controllo) possono compiere operazioni per proprio conto, possono agire come membro di un comitato per la determinazione del mercato

e possono concludere operazioni di copertura rispetto agli Strumenti Finanziari o derivati collegati, che possono influenzare il prezzo di mercato, liquidità o valore degli Strumenti Finanziari, e (c) l'Emittente (o sue società controllate, collegate, o sottoposte a comune controllo) possono avere informazioni confidenziali in relazione alle Attività Sottostanti o qualsiasi strumento derivativo che ad essi si riferisce, ma che l'Emittente non ha alcun obbligo (o sia allo stesso proibito) di rendere pubbliche.
